

JOB DESCRIPTION
-Geriatric Senior Staff Nurse-
RainTree Care Services

We are searching a Geriatric Staff Nurse for immediate hiring. The nurse promotes and restores resident's health by completing the nursing process and collaborates with physicians and multidisciplinary team members. This includes the proper medical treatment, administering of medication, assistance in physical therapy and bed bath and other care activities. Another primary task is the physical and psychological support to patients and families

RainTree Care is a premier provider of nursing homes with its first residence located in Sucat, Muntinlupa providing compassionate and personal 24-hour nursing care and rehabilitation services in a comfortable, homey and friendly environment. We are also highly specialized to care for those with Alzheimer's or any other cognitive illnesses.

Description of Duties

- Complete advanced, comprehensive and focused health assessments.
- Manage and implement patient care across the lifespan.
- Manage complex chronic illness.
- Critically evaluate the best evidence for care available.
- Consult and collaborate with physicians, head nurse and other professionals.
- Plan the Nursing Care (Nursing Care Plan)
- Identify patient care requirements by establishing rapport with potential and actual patient and other persons in a position to understand care requirements
- Establish a compassionate environment by providing emotional, psychological and spiritual support to patients and families
- Assure quality of care by adhering to therapeutic standards.
- Resolve patient's problems and needs by utilizing multidisciplinary team strategies.
- Study current professional literature and sharing present knowledge.
- Prepare nursing care documents
- Take over other duties that might be assigned to you from time to time. We are a small facility and all need to help each other
